

Esta iniciativa, financiada por la Comisión Europea dentro del Programa Horizonte 2020 de la Unión Europea, seleccionará 20 start-ups que desarrollarán proyectos en el campo de la robótica vinculados a la agroalimentación, la salud, la ingeniería civil y la fabricación.

Se presentará el proyecto, contenido de la convocatoria, así como una sesión de Q&A

Cuando: 27 de junio

Lugar: Sede de Fenin, C/ Villanueva 20, 1ª Planta. Sala de formación

Horario: 13 a 14h

Inscripción: Interesados dirigir correo a plataforma@fenin.es; secretaria@hisparob.es

WHAT IS ROBOTUNION?

RobotUnion, the first European acceleration project that aims to discover, support and fund innovative projects in the robotics industry, is launched within the framework of the European Commission's Horizon 2020 programme.

WE CONNECT

We build, empower and boost connections between the robotics eco-system and international tech hubs

WE SUPPORT

We give startups access to public and private funds, as well as connecting them with corporates and top research and technology organisations from all over Europe

WE ACCELERATE

We discover and empower industry leaders of the future, helping them find innovative ways to understand, do business and disrupt the ecosystem further

WHAT'S THE SUPPORTING PARTNERS PROGRAMME FOR COMMUNITIES?

This programme targets entities across Europe, such as startup communities, accelerators, government programmes and more, to further help RobotUnion to:

Empower innovation and entrepreneurship in robotics

Impact on the newly established robotics industry

Connect to the robotics ecosystem

WHAT WE OFFER YOU:

Communication
Share your activities to a Pan-European robotics network

Visibility
Have your logo and website link on our website as a supporting partner

Exclusivity
Participate in special activities exclusively for our community members

Communication
Spread the news of our calls, events and articles through your newsletter and social media channels*

Visibility
Include logo on your website, as one of your collaborators or include it on your social media channels and newsletters

Encourage
Boost RobotUnion programme via your community
